Public Suggestions for the NAP

National Resources Management; Commitment on local council waste management in rural areas;

Youth employment and local trade; natural resources management; commitment on local content;

Improve on access to education; provide safe homes for sexual GBV at District level
More Town Hall meetings done nationwide on OGP; I want in future the inclusion of more members to partake in the process; I want also the provincial people to be included in the process

I want a commitment on quality health services delivery in the rural communities

Commitment on girl child education, government should provide job opportunities and access to information

Access to information

Commitment on access to information

OGI should coordinate all MDAs and government institutions; OGI should partner with private sector development partners; OGI should work with local policing partnership board; OGI should link the local populace with the MDAs

Commitment on anti-corruption

Commitment on gender equality; commitment on the access to information; commitment on education, health and national resources

OGP should work with NGOs in SL; OGI should ensure that all schools work on SGBV

Government should dedicate resources to gender equality; government should implement pillar 4 of the Agender for Prosperity; Economic empowerment

There should be transparency, rule of law. accountability, peace and security

OGI should involve more CSOs in all the meetings; they should improve on waste management within the local councils

Improve citizens capacity to affordable education; Science and scholarship awards

Access to information

Commitment on agricultural production

Open education; Open sports

To encourage openness for other CSOs to be involved as partners in the OGI

Commitment on education, health, agriculture and tourism

Commitment on education

Commitment on the Free Education implementation; Commitment in monitoring the FHCI drugs; Commitment on the controlling of indiscipline by the forces i.e the police, military

Water and sanitation, Health and Energy

Fiscal discipline

Religious commitment in our beloved country will help the people of Sierra Leone

More monitoring of activities

Commitment on good governance to reduce corruption and enforce the policy on rights to access information; Enforce effective monitoring to track results

Commitment on law enforcement; commitment on health; commitment on fair budget allocation nationwide; commitment on education monitoring; commitment on social justice

Commitment on land reform

Addressing corruption in Sierra Leone Police and the judiciary; participation of the state institutions

Adult literacy for rural women; agriculture; Local council should provide funding for these women

Agricultural support to the MAFS; Commitment on Ministry of Social Welfare, Gender and Children's Affairs; Commitment on education

Access to justice, free and fair trial

Commitment on public sector accountability and transparency; Commitment on publicly tracking budgets of MDAs

To be politically free so that everyone benefits nationwide; government should add value on the health sector and to deliver on education

Promote democracy and the rule of law

Improve justice system for sexual violence

All captured

OGI should come with improved healthy in the governance structure; The EITI Bill should be passed into law

Commitment on ACC to monitor assets they had before they hold public office

Commitment to involve religious leaders in the NAP; they should increase media coverage

Increase on the educational support

Commitment on the performance contract

Commitment on admission into academic institutions

Government to be serious in their commitment not just meet international requirements

Commitment to infrasture, commitment to empowerment, commitment to educational system, commitment to teachers' welfare, commitment to electricity supply, commitment to functional media reports, commitment to employment facilities, commitment to nation

There is high level of corruption both from central government down to civil servant;
Commitment on academic institution

For effective education system, effective monitoring and evaluation of whatever action taken by government; impartiality in delivery of services in the country

For effective development please apply the participatory extension approach. The reason being that citizen participation is very much crucial as to know their problems. For the development of any country, the local industries of that country should not be

Commitment on electricity

Commitment on academic institutions

Commitment on academic admission

Commitment in the monitoring of government budget, uses of income and expenditures, commitment in the implementation of the constitutional review and monitoring the process, Commitment in monitoring school subsidies

Meeting the different communities to determine what they really need, The people should know the importance of the OGP

Access to information should be free, Declaratio of assets for civil society, civil servants and other civil servants

The education sector must be thoroughly monitored in order to improve education in the country

The 1965 Criminal Labour Laws should be repeled so that we can generate free flow of information. Commitment on improving the quality of education of Sierra Leone

Effective management of CSOs in popularising the 2nd National Action Plan nationwide. The second NAP be made publicly

Commitment on implementing Disability Act, Commitment on improving national security, Improve on increased domestic revenue mobilisation

Commitment on water and sanitation

Waste management in the country should be decentralised and its work should be given not to only the contractor but 2 to 3 for the case of Freetown

Commitment to freedom of information from all MDAs in the country; Commitment to minimum salary, Le500,000 to all locals

Commitment to improve the education system.

Commitment on accomodation for chiefs, commitment on the chiefdom governance, commitment on the health sector, commitment on health of women, children and infant

Commitment on strengthening CSOs and empower them to disseminate government plans to the people

Commitment to free education from primary to GSS 3, Commitment to free health care, commitment on access to employment without political, regional or tribal biasness

Commitment on improving the quality of education throughout the country, The health system needs much improvement, There is still much to be done in the agricultural sector

Commitment on improving the quality of education, commitment on food security across the nation especially on local food industry

Employment of youths in order to empower them and reduce unemployment; To improve the education sector; Price control for goods and services to build our country and avoid starvation; to improve on health and water facilities.

Commitment on Job creation; Commitment on mechanised agriculture towards the exportation of rice and other food stuffs, commitment on industrialisation

Commitment on the total decentralisation of all functions

Commitment on the SDGs implementation; Commitment on child protection welfare issues.

There should be greater development in our economy; Commitment to improve the quality of the education sector

Commitment on energy, electricity supply and metre ownership; Commitment on trunk and feeder roads; Commitment on Public and Private Partnerships; Commitment on Parliamentary seating; Commitment on public officials occupying public offices;

Access to information to be included; Commitment to improve the education sector

National Civic Education on the rights and obligations of citizens; To give importance to customary marriage and licence of customary marriage

I want to see the freedom of information be fully implemented; I want to see the tourism sector to be accountable to the public; to distribute development equally

Parliamentarians to be holding constituency meetings, Every child of Sierra Leone should go to school

Sexual violence should be stopped; Education should be improved; Waste management should be reviewed

Improve on education especially the granting aid given by government to the districts; Improve on the secrecy issue to strengthen the police force; put more emphasises on GBV to be dealt with quickly

Improve on the education sector

I want to see improvement on civic education and technology

Commitment to ensure food security; Commitment to attain health care for all; Commitment to ensure access to quality education; Commitment to cultural preservation; Commitment to the rule of law and respect for human rights

I want to see constituency meetings with our MPs at least one every 3 months for development; We need prompt action to be taken by the Family Support Unit on the report of Sexual and GBV

We tribal heads we want a commitment to improve tribal heads in the local justice sector; to empower tribal heads to have representatives in the local councils like the Chieftdomes; Commitment to see effective government monitoring on delivery of

Effective communication systems; Commitment on teenage pregnancy; commitment on proper records management

To train CSOs to serve as watchdogs to public actors

Commitment on civic education and awareness raising to respond to National Action Plans

Contract documents be presented to the headman as part of the commitment; Justice is always delayed; MPs should call meetings monthly; Government to discourage land grabbing

Improve on security of the state; Increase commitment on quality of education; Commitment on infant mortality rate; Commitment on citizens' ownership of land; Commitment on addressing water problems across the country

We want to have meetings in our wards every month

The involvement of local authorities on waste management; I want to see cabinet or parliament seating in the other 3 Regions

Improve on agriculture, education, health and trade

To help the media, to empower them so that the OGI can improve more than any other organisation

Improve road network; Deal with land grabbing; Giving more power to tribal heads

Improve on security in our different localities; All MPs should meet with their people weekly or monthly in their different constituencies; Improve on road networks in different communities; Empower the tribal heads for waste management in their communities;

Good health facilities; More women in Parliament

The government should give CSOs to implement projects; The local council should not be political for the development of the country; Government should sign the local content policy; All MPs should visit their constituencies weekly

Ministries should be accountability on their various commitments on education; Minimum benefits to the people; MPs should meet their people at least every 3 months

OGI to improve the women participation in parliament; proper waste management; improve on the health sector

OGP to improve women's participation in parliament; Proper management in the health sector; Action should be taken against the rapists; Freedom of information bill should be publicised not only on paper.

Commitment on Free Health Care; Commitment on Youth employment; Commitment on security management; Commitment on local context policy

Village heads should have ID Cards; Members of Parliament should always include village heads in their constituency meetings

Take village heads to have Identification Cards; Parliamentarians should involve every village head in their constituency meeting; Improve security sector; Civil servants pension is too small so government should increase it; Access decentralisation in our

ACC to monitor their MOUs with CSOs, Fiscal transparency and open budget is not visible in our district council; We want our own District Officials and office space

The asset declaration must be done; Constituency meeting with MPs, Community security must be paramount; Ministry of Trade must visit all market sites;

Emphasis should be laid on creating safer documentaries; Commitment on dealing with lawlessness, violence and gender related issues; peace unity and participatory process especially election and decentralisation process; Interface with MPs and Councillors; Accountability on our own source of revenue; decentralisation structure

Monthly constituency meetings by the MP; Monthly ward meetings by councillors; Community should be made aware of the assets declaration; commitment on land grabbing

Commitment on distribution of resources equitably; Commitment on recruitment of civil service jobs

Information should be shared in the constitution of Sierra Leone

Performance contracts should follow individual performance auditor

We as an organisation need to go down to the grassroots to carry down this information

Commitment on procurement contractors to sign performance contracts
